

Excursion

BUSH TRACKERS BREAKFAST

2103

Half-day

The idea behind this excursion is to give people more insight into the wild animals of the Gambia/Makasutu, allowing more time to track the animals, and explore the forest and habitats within it.

Arrive at Makasutu "Base Camp" around sunrise for tea/coffee and the dawn chorus from the birds. Small groups (no more than 6 per guide) will set out for the "Big Forest" searching for tracks and spoor, which will then set the direction that the excursion will take. This excursion is aimed at people with an interest in wildlife, and is more specialized than the existing day trip. A deeper knowledge of the habitats and behavior of the animals will be gained, and also a chance to visit the forest at a time when most activity is taking place.

Breakfast will be a true African bush adventure. The guests will be given flat spades (shovels) to cook their own breakfast of eggs, bacon, sausages, and tomatoes over small campfires (Alternatively, the chef can cook this in the Kitchen if some guests wish).

After some relaxation a return to the Hotels is organized in plenty of time for lunch.
